Fairview New Homes and One Housing Group have been liaising with Barnet Council in order to bring forward proposals for the redevelopment of the Victoria Quarter, on the site of the former British Gas Works at Albert Road, New Barnet.

The site benefits from existing planning consent, but rising housing targets in Barnet mean there is a need to make optimal use of under-utilised, brownfield sites of this kind in order to reduce pressure on valuable Green Belt and greenfield land elsewhere in the Borough.

The site is currently disused and benefits from excellent connections to existing transport links making it a highly-sustainable location for new homes.

Working in partnership, Fairview New Homes and One Housing Group have the combined industry experience to unlock the site's redevelopment potential, creating a high-quality scheme that delivers much-needed affordable housing, new public realm and commercial space.

We are committed to engaging with the local community and stakeholders in formulating our emerging proposals. We are pleased to invite you to attend one of our upcoming public exhibitions to view our proposals, speak with members of the project team and provide your feedback.
